This AddonPack is a collection of my vehicle and handling meta files, additional scenarios , popcycle, popsets , relationship data files sp\_manifest changes and ai tweaks to further expand upon and fix original mod.

NO ORIGINAL WOV FILES INCLUDED PLEASE INSTALL WORLD OF VARIETY 10.1 BY CASS BEFORE MY FILES OR THIS MOD WILL BREAK YOUR GAME!!!!!! EXPECT INVISIBLE CARS, NPCS AND CRASSHES WITHOUT IT!! (wov being outdated version doesnt matter) (10.1 will crash without this mod)

- INSTALATION:
1. Download World Of Variety 10.1 by Cass (<https://www.gta5-mods.com/misc/world-of-variety>)
  2. Run wov.oiv and choose install to mods folder (optional files not tested)
  3. Download AddonPack from this page
  4. Run WorldOfVarietyAddonPack.oiv inside download and install to mods folder
  5. Enjoy

CHANGELOG

increased deformation limits on all cars from WOV dlc packs  
ped variety lowered to 1.70000 in gameconfig (vram)  
increased ped count in popcycle.dat in various zones during night time  
restored beer bottle in brown bag prop for peds as seen in game trailers and cutscenes
